Observation biases and sample sizes for observation object BluelineTilefish

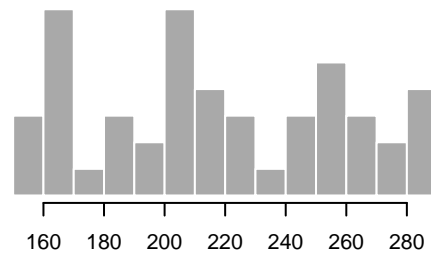

No. annual catch-at-age obs (CAA_san

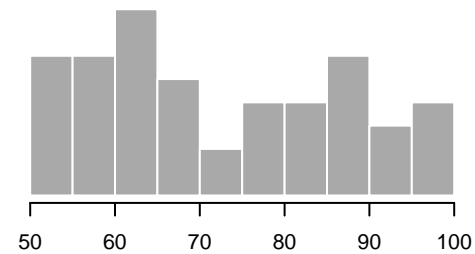

Effective sample size CAA obs (CAA_Es

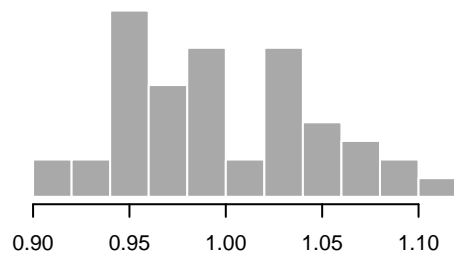

No. annual catch-at-length obs (CAL_sa

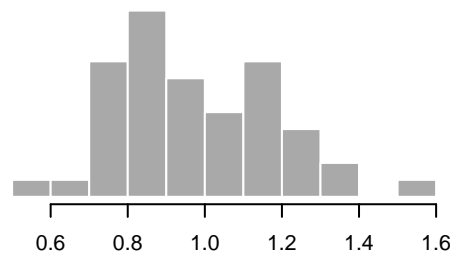

Effective sample size CAL obs (CAL_Es

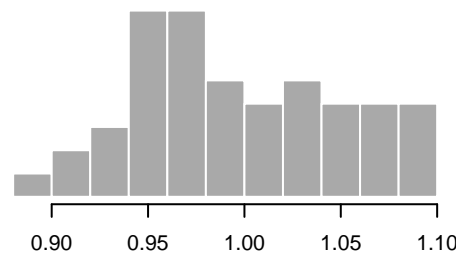

Natural mortality rate bias (Mbias)

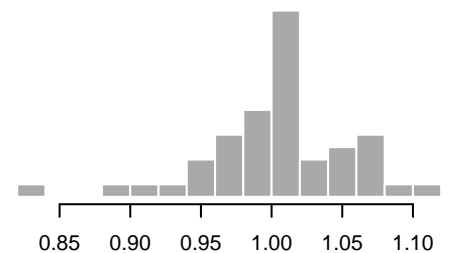

FMSY/M bias (FMSY_Mbias)

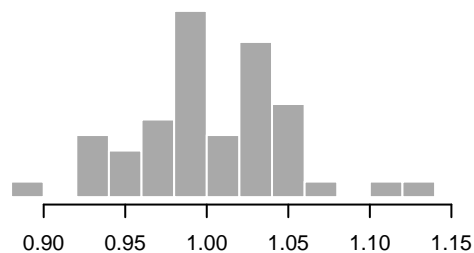

Bias in length at maturity (lenMbias)

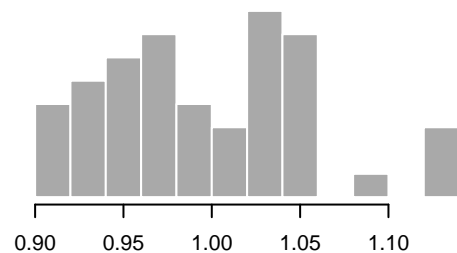

Bias in length at first capture (LFCbias)

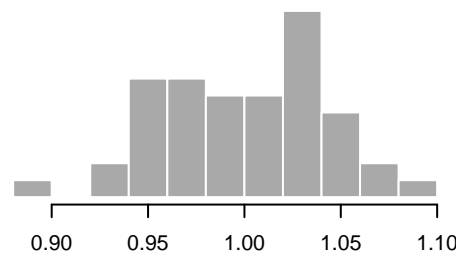

Bias in length at full selection (LFSbia

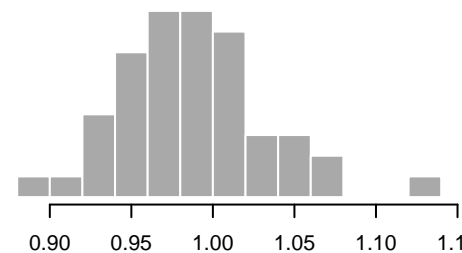

Bias in von B. K (Kbias)

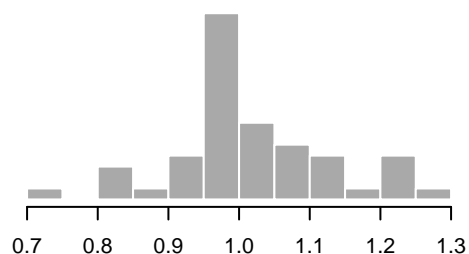

Bias in von B. t0 (t0bias)

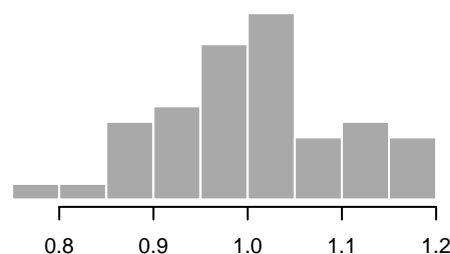

Bias in von B. Linf (Linfbias)

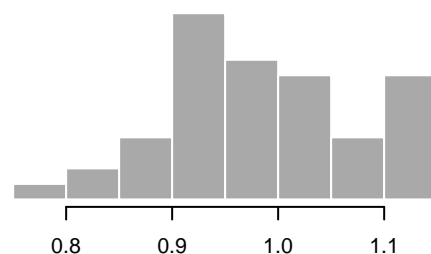

Bias in index at MSY (Irefbias)

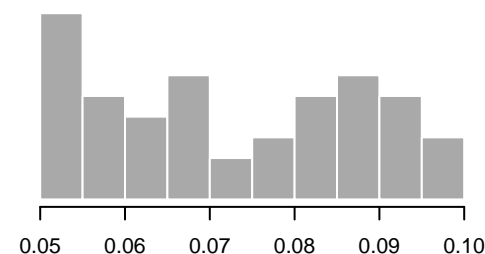

Bias in MSY catch (Crefbias)

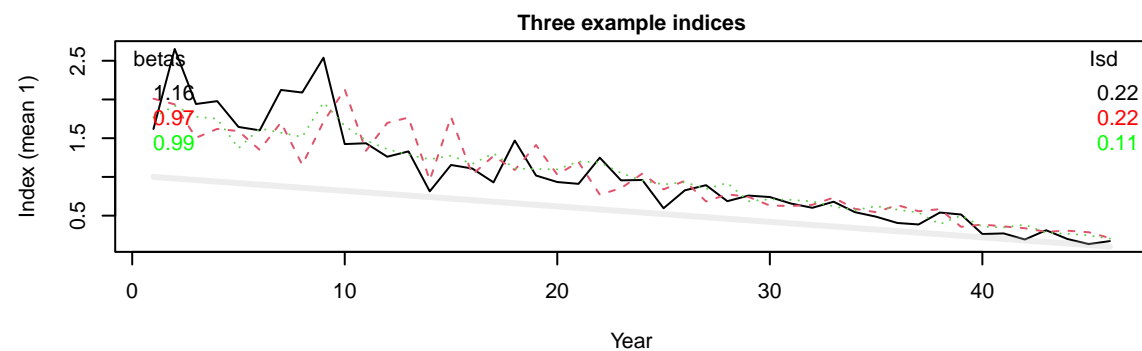

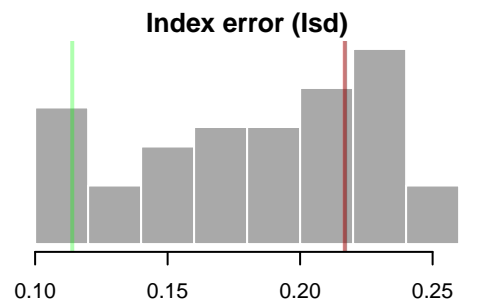

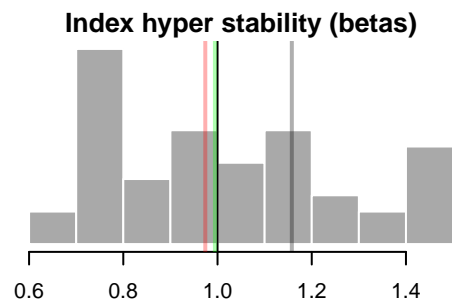

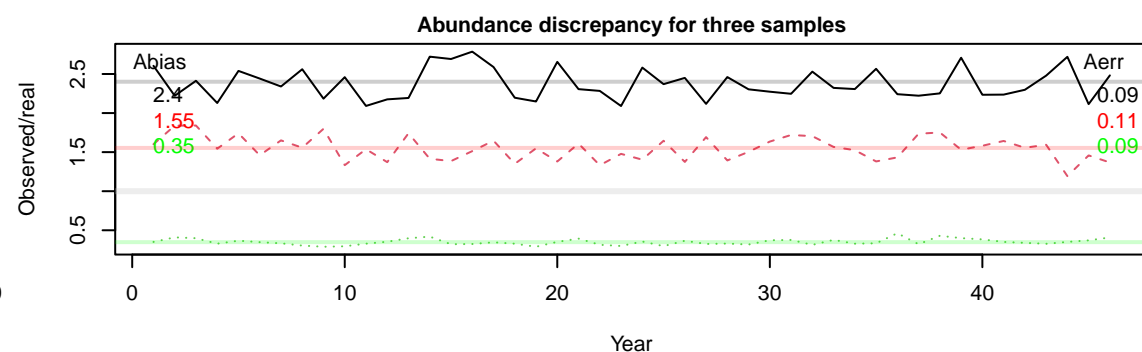

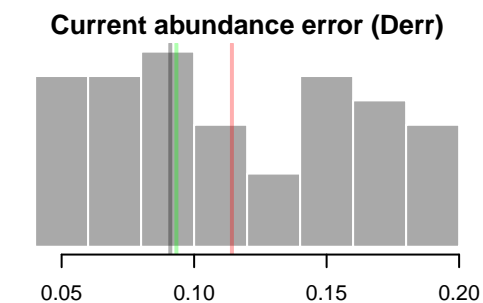

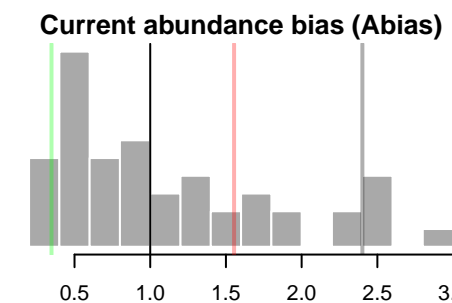

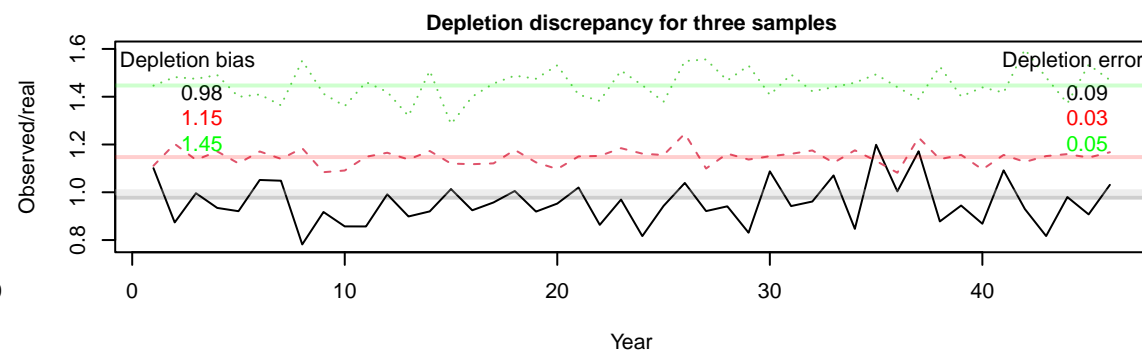

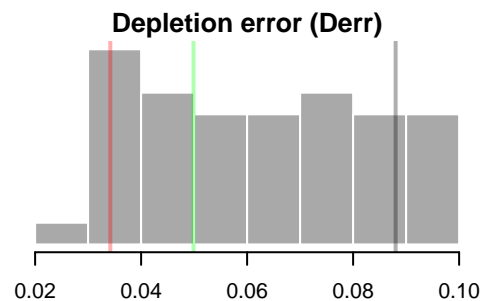

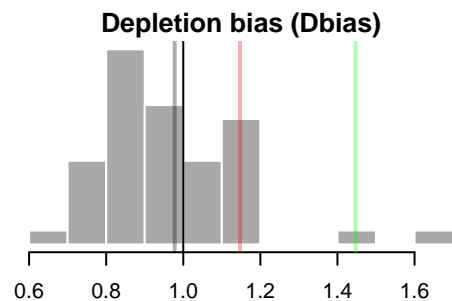

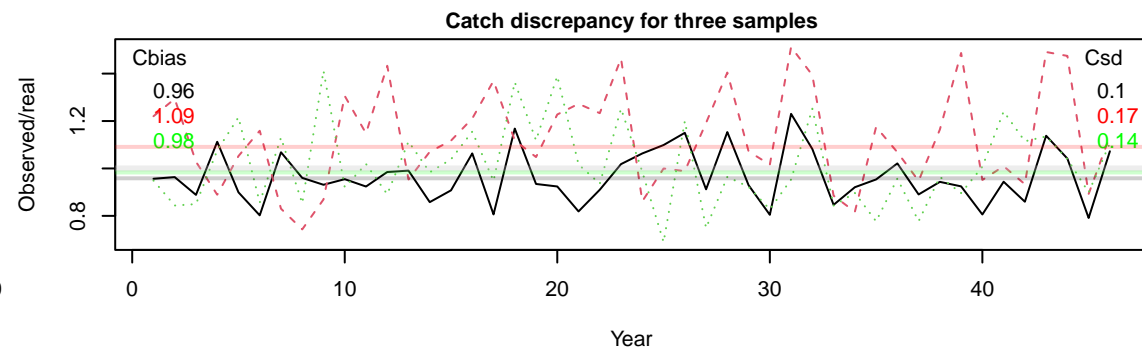

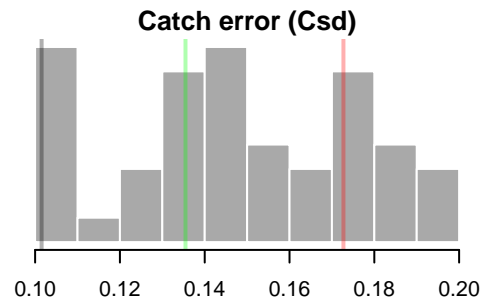

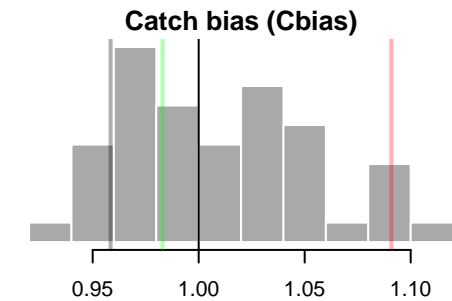

Bias in MSY biomass (Brefbias)

Bias in recent recruitment strength (Rec
